DANIEL HARRIGAN, MAYOR

The Ohio Canal  
Interceptor Tunnel is 6,240 feet  
long, 27 feet in diameter, 170 feet deep  
and capable of storing 26 million gallons  
of combined sewer overflow, capturing  
467 million gallons of overflow in the  
typical year for treatment.

**Saturday**  
**Aug 19**  
**11am – 2pm**

at

**The Mustill Store**  
**57 W. North Street, Akron**

Parking locations will be clearly marked and a  
free shuttle service to the site will be provided.
